PROFESSIONAL SUMMARY

Information Technology undergraduate specializing in machine learning, automation, and data engineering. Experienced building end-to-end Python pipelines, predictive models, and LLM-integrated workflows. Proficient in Scikit-Learn, Pandas, SQL, and REST API development with production internship experience delivering measurable efficiency gains.

EXPERIENCE

Artificial Intelligence Intern

Oct 2025 – Mar 2026

BHSSYEN Pvt. Ltd

(Remote)

- Built and deployed an automated lead generation system using Python and Google Custom Search API to extract, filter, and structure 500+ B2B prospects, achieving a <2% duplicate rate via custom deduplication logic and Excel-based storage.
- Designed a psychometric assessment automation pipeline integrating Google Sheets, Apps Script, and LLM APIs to auto-generate role-specific candidate evaluation reports across 3 job profiles.
- Eliminated 100% of manual reporting overhead by automating LLM-driven performance insights and interview question generation, reducing report turnaround from several hours to under 5 minutes.
- **Technologies:** Python, Pandas, OpenPyXL, Google APIs, LLM APIs, Automation Scripting

EDUCATION

Bachelor of Engineering – Information Technology

Aug 2024 – May 2028 (Expected)

Pimpri Chinchwad College of Engineering

Pune, India

CGPA: 7.6 / 10

Relevant Coursework: Data Structures and Algorithms, Probability and Statistics, Database Management Systems, Machine Learning

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Machine Learning & Data: Scikit-Learn, Pandas, NumPy, Supervised Learning, Regression Modeling, Feature Engineering, Exploratory Data Analysis (EDA), Model Evaluation

Databases: PostgreSQL, MySQL, Oracle SQL

Web & Tools: Streamlit, Plotly, MERN Stack, Git, GitHub, Figma

Cloud: Oracle Cloud Infrastructure (OCI)

Core Skills: Data Structures and Algorithms, Object-Oriented Programming (OOP), REST API Development, Statistical Analysis

PROJECTS

Machine Learning-Based Stock Market Forecasting Dashboard

(github.com/VeerbhadrhaMahant/StockAnalysisSystem)

Python, Streamlit, Scikit-Learn, Plotly

- Developed a time-series forecasting dashboard analyzing 5+ years of historical OHLCV data across multiple stock tickers to predict price trends using linear regression models.
- Engineered lag features, rolling averages, and volatility indicators; achieved R^2 of 0.89 on test data and evaluated model performance using MAE, MSE, and R^2 metrics.
- Implemented volatility analysis, correlation heatmaps, and multi-stock comparison visualizations in an interactive Streamlit interface.

Automated Lead Generation and Web Scraping System

(github.com/VeerbhadrMahant/Lead-Extraction-Tool)

Python, Web Scraping, Automation

- Built an intent-driven web scraping pipeline identifying corporate training opportunities using Google Custom Search API, processing 100+ queries per run.
- Implemented rule-based filtering to remove irrelevant sources and advertisements, improving lead precision by an estimated 60%.
- Extracted structured contact information including emails, phone numbers, and company details from web pages using modular search, filter, extraction, storage, and logging components.

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) 2025 Certified Generative AI Professional – Oracle University
- Oracle Cloud Infrastructure (OCI) 2025 Certified AI Foundations Associate – Oracle University
- Machine Learning A-Z: AI, Python and R – Udemy
- A Deep understanding of deep learning – Udemy

LEADERSHIP AND ACTIVITIES

Artificial Intelligence and Data Science Executive

Jul 2025 – Present

MLSC PCCOE

Pune, India

- Led hands-on AI and Data Science workshops and collaborative technical projects for a student community of 30+ members.
- Assisted in organizing Techroom 2025, AI Quest 2025, Praxis 2026 and Bluebit 4.0 2026, coordinating logistics for 200+ participants.

Technical Team Member

Oct 2024 – Aug 2025

International Relations Cell, PCCOE

Pune, India

- Managed technical coordination for institutional events and hackathons, supporting cross-functional teams of 30+ members.

LANGUAGES

English, Hindi, Marathi
